Powered Carts

BY ALTUS

Care Moves. Just Roll With It.

At Altus our goal is to improve how clinicians and staff work. **We build durable, ergonomic, and stylish technology workstations in order to give clinicians the tools they need to help patients heal.**

The ClioAir

Utilizing the safest battery technology on the market, our ClioAir powered workstation has been leading the industry for over six years. It is designed to remove obstacles and enhance the care given to patients. The ClioAir is our most powerful cart with **14 hours per full charge!**

Clinician Focused

Our Clio workstation on wheels considers the ergonomic and human factors to adjust to each unique clinician. Happy clinicians make happy patients!

Ergonomic:

- Sit-to-stand with Ascend lift
- Manual lift offers 18" of height adjustment
- Ascend electric lift technology allows you to height adjust with a powered button
- Tilt and adjust monitors to fit each clinician
- Large worksurfaces for adequate space
- One-piece keyboard pulls-out smoothly with a 0/-20 tilt
- Soft palm support

Works WITH you, not against you:

- Our LCD monitor has +/- 365 degree swivel
- Swivel monitor to interact with patients or for easy cart maneuverability integrated cord management
- Choose from multiple monitor mounts and configurations
- Keyboard and surface light options
- Battery lasts an entire shift
- Battery charge level displayed on cart handle and computer monitor

Highly Mobile:

- One of the lightest powered carts on the market, weighing 20% less than our Clio model
- Smooth and effortless maneuvering
- 18.5" wide footprint
- Choose from multiple casters to fit your environment

Power

- **Safe:** ClioAir's lightweight performance LiFePO₄ (Lithium Iron Phosphate) battery technology weighs less, lasts longer, and charges more efficiently compared to other batteries
- **Uninterrupted workflows:** Power for an entire shift without needing to re-charge. Recharge within 2 hours & work while you charge

MPM View Software for Utilizing Management & Analysis

- All of our ClioAir carts come with simple **Clinician View** to quickly see the remaining power supply in hours
- If you ever run into some technical issues the **Tech View** gives you detailed information on the power supply and battery health of the cart
- Take full control with our **Fleet View** for diagnostics and predictive analytics for your entire fleet all in one central location

Ascend[®] Sit-to-Stand Lift Technology

- Using a manual lever, access 18' range of height adjustability fostering an ergonomic view of computer
- Accommodates a wide range of clinician and caregiver heights (from 5 percentile - 95 percentile)

Ascend[®] EL Sit-to-Stand Electric Lift Technology

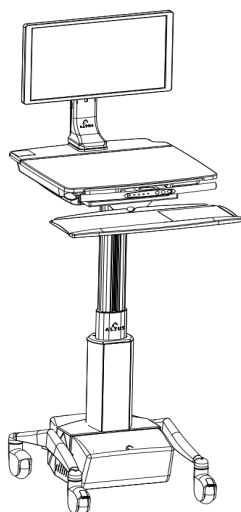

- **Fast:** Ascend Electric Lift is 47% faster than leading computer cart electric lifts
- **Powerful:** Ascend Electric Lift is 52% stronger. Total max dynamic load of 270 lbs vs 178lbs. from leading computer cart electric lifts
- **Reliable:** Simplistic design with an expected life of 10,000 up/down cycles
